

International Children's Advisory Network

Jumo Health Presents the Virtual 2020 iCAN Research & Advocacy Summit Agenda

**July 13-17
2:00 - 4:00 GMT daily**

Empowering Pediatric Patients Worldwide

**iCANResearch.org
#iCANMakeADifference
#iCAN2020Summit**

International Children's Advisory Network, Inc. (iCAN) is a 501(c)3 dedicated to providing a platform to allow our youth members to share their voice within all facets of pediatric clinical research, healthcare, innovation, science, technology, and advocacy.

The **International Children's Advisory Network, Inc.** (iCAN) is a worldwide consortium of children's advisory groups, known as Kids Impacting Disease Through Science (KIDS) and Young Persons Advisory Groups (YPAGS). These dedicated youth member groups work in unison around the world to provide a voice for children and families in medicine, research, and innovation.

With your help, we will be able empower young people to play a more productive and satisfying role in their own health, the health of other youth, and those that come after.

2020 Strategic Leadership

The International Children's Advisory Network, Inc. (iCAN) strategic vision, mission, and values are guided by support of the iCAN Board of Directors (BOD) and the iCAN Advisory Board (AB). The BOD meets monthly and handles the more day-to-day activities of iCAN. The iCAN AB meets four times per year to make sure iCAN is meeting the needs of its youth, parents, and industry partners. Leadership roles for the AB commence July to July on an annual basis.

iCAN 2020 Board of Directors Members:

Dr. Charlie Thompson, iCAN Founder, Global Lead, Pediatric Center of Excellence, Pfizer

Leanne West, iCAN President, Chief Engineer Pediatric Technology, Georgia Tech

John Ssentamu, African Continent Representative, Team Leader Uganda

Dawn Wolff, President, International Society for Pediatric Innovation, CSO, Children's Mercy

Dr. Lynn Yao, Division of Pediatric and Maternal Health Center for Drug Evaluation and Research FDA

Things to Remember

This is a conference where we celebrate our differences - where we live, the way we look, the way we talk, and the medical conditions we may or may not have. We celebrate these differences because we all share the common goal of making the voices of all children around the world heard for the betterment of pediatric healthcare everywhere. We ask that everyone take this unique opportunity to really listen to and understand and empathise with all of the children who are bold enough to share their stories, opinions, and talents with us at this conference.

This is a conference for Youth to share their expertise and opinions.

Please allow only participating youth to ask questions and give comments, unless otherwise asked for by the presenter.

We will rely on the “raise hand” & “chat feature” for submission of questions.

English is the universal language of science, therefore this conference’s primary language will be English. However, there will be some videos that are in multiple languages. But to get the full content of the conference, please have someone with you who can interpret from English to your preferred language if it something other than English.

The Team Leader meeting and Advisory Board Meeting are closed meetings. Otherwise, everything is open to everyone who would like to attend. If you are interested in being a team leader for a new chapter, please contact Amy Ohmer at amyohmer@icanresearch.org and she can add you to the Team Leader Meeting if you’d like.

2:00PM GMT = 10:00AM Eastern US = 4:00PM Central European

Monday July 13, 2020 brought to you by UCB
